

Harmonic Highlights Report for

Robert Downey Jr.

April 4, 1965

1:10 PM

Manhattan, New York

When two planets are separated by a particular angle, astrologers believe that the influences of the two planets combine to create a strong effect on a person. In ancient astrology and much modern astrology five angles are considered very important: 0, 60, 90, 120, and 180 degrees. These important angles are known as "aspects". In modern times, many astrologers also interpret aspects of 30, 45, 135, and 150 degrees. Some astrologers also use a variety of other angles, such as 72, 144, 40, 80, and many other angles. In the late 20th century a branch of astrology known as "harmonic astrology" developed and practitioners of harmonic astrology believe that there are many hundreds of different aspects, so harmonic astrology has greatly increased the complexity of astrological interpretation. Not all astrologers are convinced that these additional aspects are important. Harmonic astrologers also group together various aspects which they believe to have a similar influence. For example, the fractions of $1/9$ (40 degrees), $2/9$ (80 degrees), and $4/9$ (160 degrees) of a circle are known as "9th harmonic aspects". Given below are interpretations of the following 6 aspects: (1) the semisextile aspect, which is 30 degrees, (2) 24th harmonic aspects, (3) 16th and 32nd harmonic aspects, (4) quintiles and biquintiles, also known as 5th harmonic aspects, (5) the septile, biseptile, and triseptile aspects, also known as 7th harmonic aspects, and (6) the novile, binovile, and quadnovile aspects, also known as 9th harmonic aspects. These additional aspects are known as minor aspects or harmonic aspects. There are many other aspects used in harmonic astrology, but these aspects are among the most important and powerful, and hence this report describes some of the most important Harmonic Highlights in your astrology chart.

I recommend that you read this report after reading an interpretation based primarily on the most commonly used aspects. I think you will be impressed by the ways in which the aspects interpreted in this report describe major issues in your life and in your personality that are not described as clearly by the more commonly used aspects. Hopefully this analysis of harmonic aspects will be useful and helpful to you. If you are an astrologer and you currently do not use harmonic aspects, reading several Harmonic Highlights Reports of friends and family may make you a believer in harmonic aspects. Adding these additional aspects to your interpretation does add greater complexity and detail to your analysis, and keeping a clear, integrated view of the

astrology chart becomes more difficult, but astrology is likely to grow in sophistication as it evolves and develops in the 21st century.

Aspects noted as "very strong" in the report have an orb of less than 1/3 the allowable orb and appear at the beginning of the report. "Strong" aspects have an orb of less than 2/3 the allowable orb, and aspects that have an orb that is 2/3 or greater of the allowable orb are printed at the end of the report.

If there are any midpoints conjunct or opposition midpoints within a 15 minute orb, these are also interpreted. These four-planet patterns are also known as isotraps or planetary pictures.

Finally, planets conjunct or opposition the midpoint of two other planets are interpreted. These midpoint structures are also known as direct midpoint structures because the angular distance from the planet at the midpoint to each of the other two planets is the same. Direct midpoint structures with an orb of less than 15 minutes are analyzed first followed by those with a 30 minute orb, then a 1 degree orb, and finally up to a 1 1/2 degree orb. Therefore the midpoint structures with smaller orbs are interpreted first followed by midpoint structures with larger orbs.

For the benefit of astrologers, given below are the orbs used for each aspect. Note that according to harmonic theory, orbs are defined so that all harmonics occur equally often by chance, and hence the orbs are not rounded to the nearest degree.

Aspects and orbs:

16th harmonic	:	1 Deg 00 Min
32nd harmonic	:	0 Deg 30 Min
24th harmonic	:	0 Deg 40 Min
5th harmonic	:	3 Deg 12 Min
7th harmonic	:	2 Deg 17 Min
9th harmonic	:	1 Deg 47 Min
semisextile	:	1 Deg 20 Min

Moon 16th harmonic (3/16) Saturn, very strong (Orb: 0 Deg 18 Min):

You have a very strong inner need to be responsible and sincere. You have little tolerance for superficialities, lies, and exaggerations. You tend to be shy and humble, and you stay away from the glamour and limelight. Do not allow yourself to be so demanding of yourself and responsible that you are unable to forgive yourself for past mistakes. Also, having time to be alone is good for you and can give you inner strength and peace of mind.

Moon 16th harmonic (5/16) Uranus, very strong (Orb: 0 Deg 12 Min):

People who do not know you well are unlikely to realize the extent to which you need to feel comfortable and free of burdensome restrictions. It is difficult for you to compromise, and

follow the requirements of others, especially if you do not agree with the regulations.

Saturn 16th harmonic (5/16) Neptune, very strong (Orb: 0 Deg 01 Min):

You cut beneath the glamour and superficiality that you see around you, and your approach to religion and spirituality is serious and critical. You may be so serious in your pursuit of your ideals and have so much distaste for superficiality and glamour that you miss the magic and wonder of holidays, fantasies, and many imaginative art works and music.

Mercury 5th harmonic (biquintile) Pluto, very strong (Orb: 0 Deg 55 Min):

You appreciate any work that is done with passion. You enjoy periodically becoming fully engrossed in a book, research, movie, sports, or any other activity. You have the ability to develop expertise or excellent technique through your combination of creativity and focused attention.

Venus 5th harmonic (biquintile) Neptune, very strong (Orb: 0 Deg 40 Min):

You have a strong artistic inclination. You have a vivid imagination and the ability to visualize things in different ways. You are sensitive and may find it difficult to live among coarse, dull, or insensitive people.

Uranus 16th harmonic (3/16) Neptune, strong (Orb: 0 Deg 31 Min):

People who do not know you well may not realize how strong the inner child in you is. A world that is mundane and prosaic is not for you. You have a need for the inspirational, imaginative, and magical.

Jupiter 24th harmonic (7/24) Uranus, strong (Orb: 0 Deg 18 Min):

You have an inner sense of enthusiasm that draws you to progressive and exciting ideas and activities. Your spirited and enthusiastic approach enables you to find opportunities and succeed in life. Your positive and enthusiastic attitude is one of your greatest assets and gifts.

Sun 5th harmonic (biquintile) Mars, strong (Orb: 1 Deg 26 Min):

You have a knack for developing creative ways to achieve your goals. Rather than meet obstacles head on, you have a talent for developing graceful maneuvers that are more effective. You can excel at a sport or competition that requires finesse and creativity as well as strength and power.

Sun 5th harmonic (biquintile) Neptune, strong (Orb: 1 Deg 15 Min):

You have a natural ability to understand and appreciate different artistic styles. You can intuitively grasp how the dreams, hopes, aspirations, and religious beliefs of people are

creatively expressed through traditions, music, arts, and life style. You have a rich imagination and sensitivity to draw upon in your own creative work.

Mars 7th harmonic (biseptile) Jupiter, strong (Orb: 1 Deg 08 Min):

You are an excellent strategist and you are very good at developing and implementing long-range plans. You have the will power and foresight to practice, be disciplined, study or persist to achieve great goals. You are an architect, so to speak, who designs and builds a magnificent edifice over time. Others may try to sway you or distract you but your quiet, persistent efforts are likely to succeed in the long run.

Mercury 9th harmonic (novile) Saturn, strong (Orb: 0 Deg 47 Min):

You have a talent for seeing underlying organizing principles. You are well suited to the study of biology, astronomy, and politics because these subjects emphasize underlying principles or structures that describe large systems. You have a knack for seeing underlying principles that apply to a large range of situations.

Venus semisextile Saturn, strong (Orb: 0 Deg 51 Min):

Like most people, you are responsible and dedicated to loved ones, and you are more touched by sincerity and respect than by formal displays of affection, such as expensive gifts, that are not given from the heart.

Sun 32nd harmonic (13/32) Uranus (Orb: 0 Deg 30 Min):

You are a very strong individualist. You may not be flamboyant about it and others may not realize the extent to which you march to the beat of your own drummer, but down deep you are a free spirit who likes to make his/her own rules and is skeptical of what the majority believes.

Sun 5th harmonic (biquintile) Uranus (Orb: 2 Deg 45 Min):

You can succeed in an area that requires creativity or ingenuity. You appreciate creativity, and technical expertise probably doesn't excite you as much as innovation. There is a light-hearted side to you that enjoys jokes, games, cleverness of all kinds, and freedom from dull repetition.

Mars 5th harmonic (quintile) Neptune (Orb: 2 Deg 41 Min):

Simply producing useful and functional objects and services is not sufficient for you. Putting a creative and imaginative quality into whatever you do is much more suitable to you. Fantasy and fiction appeal to you, and you are fascinated by imaginative ideas.

Jupiter 5th harmonic (quintile) Saturn (Orb: 2 Deg 12 Min):

You are good at rearranging and redesigning things, and finding alternatives that are more efficient and less wasteful.

Sun 9th harmonic (novile) Jupiter (Orb: 1 Deg 26 Min):

You can succeed through cooperation with others and your friendly, personal way of working. You are tolerant and unbiased, and you can succeed in an area that requires a sensitivity to the needs and interests of different people. You have a talent for synthesizing and incorporating different styles or influences in an effective way.

MIDPOINTS CONJUNCT/OPPOSITION MIDPOINTS (if there are any with up to a 15 minute orb)

Moon/Saturn opposition Uranus/Neptune: (Orb: 0 Deg 05 Min):

You have an unusual and complex emotional makeup. You are inspired with great vision and imagination and yet also serious and mature as well. You also have a rebellious streak and you can feel constrained by traditions, and yet you tend to respect these traditions at the same time. Negatively, you can feel disenchanting with the status quo but offer no positive alternatives and be pessimistic and cynical. Positively, you can help institute positive alternatives that make it possible to address problems more responsibly, more efficiently, and more ethically.

Mercury/Venus opposition Neptune/Pluto: (Orb: 0 Deg 08 Min):

You thoroughly enjoy a good book or movie. You dive deep into the imagery, the imagination, the atmosphere, and the sensitivity that the author, artists, actors, or other contributors to a project have imparted into their work. You can become fully absorbed in the symbolism, magic, romance, and/or fantasy portrayed. Any subject that lacks imagination and depth is likely to bore you. You are especially drawn to spell-binding or deeply moving works that plummet the depths of human emotion, sensitivity, and the deepest aspirations and hopes of people.

DIRECT MIDPOINT STRUCTURES (allowable orb = 1 1/2 degrees)

Sun Opposition Mars/Neptune 0 deg 06 min

You need to work in an area that captures your imagination. Like a child, you can get very excited about things which to others seem less important or dramatic. You succeed in areas where you can share your sense of magic and wonder. Your dreams may revolve around something as simple as athletic performances or as grand as visions of world peace; whatever

your dream, follow it and share it, but take an objective look also at how your dreams and visions fit into the lives of others and the world in general.

Saturn Opposition Mars/Pluto 0 deg 15 min

You are capable of extremely hard work. You can work long hours at tedious tasks and without complaining. If you set your mind on a goal, you can focus single-mindedly on the work and leave no stone unturned. Others may take advantage of your efforts; try to receive reasonable compensation for your contributions.

Sun Conjunct Moon/Saturn 0 deg 50 min

You like to isolate yourself sometimes, and often you feel uncomfortable in a large group of people. Work or activities that demand quiet and solitude suit you well, but be careful not to avoid people at inappropriate times, and be careful to make sure that friends, loved ones, and even acquaintances, do not feel that you are avoiding them or are cold to them.

Uranus Conjunct Mars/Pluto 0 deg 44 min

You can work with extreme speed and force. This capability can help you excel in sports and competitions, and enable you to achieve a great deal in any area that you apply yourself to. Sometimes you can be pushy and aggressive without realizing it; if you want others to cooperate with you, you will need to take a more gentle approach. Always try to apply your dynamic energy in a way that is not harmful to others.

Sun Opposition Uranus/Neptune 0 deg 45 min

Your imagination and idealism are unusually strong. It is likely that you believe in various paranormal phenomena that most people are skeptical of. In order for your dreams, visions, and fantasies to develop to their greatest potential, it is best if you avoid drugs, alcohol, and stimulants.

Saturn Opposition Mars/Uranus 1 deg 09 min

You work intensely and sporadically. It is difficult for you to stay on a fixed schedule with a prescribed task. You prefer to work very hard at your own pace. Others usually get in your way. You become easily frustrated by the demands of others.
